

**PAYSYS**

# Open Credit

Digital Lending Management System

---

End-to-End Digital Lending | Compliant | Scalable | Integrated

# Executive Summary: A Regulator-Compliant Digital Lending Infrastructure

## Regulatory Shield

Native alignment with SBP Digital Lending Guidelines and SECP NBFC regulations. Built-in data privacy and fair lending protocols.

## Digital-First Engine

Fully automated lifecycle. From NADRA BVS onboarding to algorithmic credit decisioning and instant disbursement.

## Ecosystem Connectivity

Pre-integrated via 'Open Connect' middleware to national infrastructure: NADRA, 1LINK, RAAST, and Credit Bureaus.

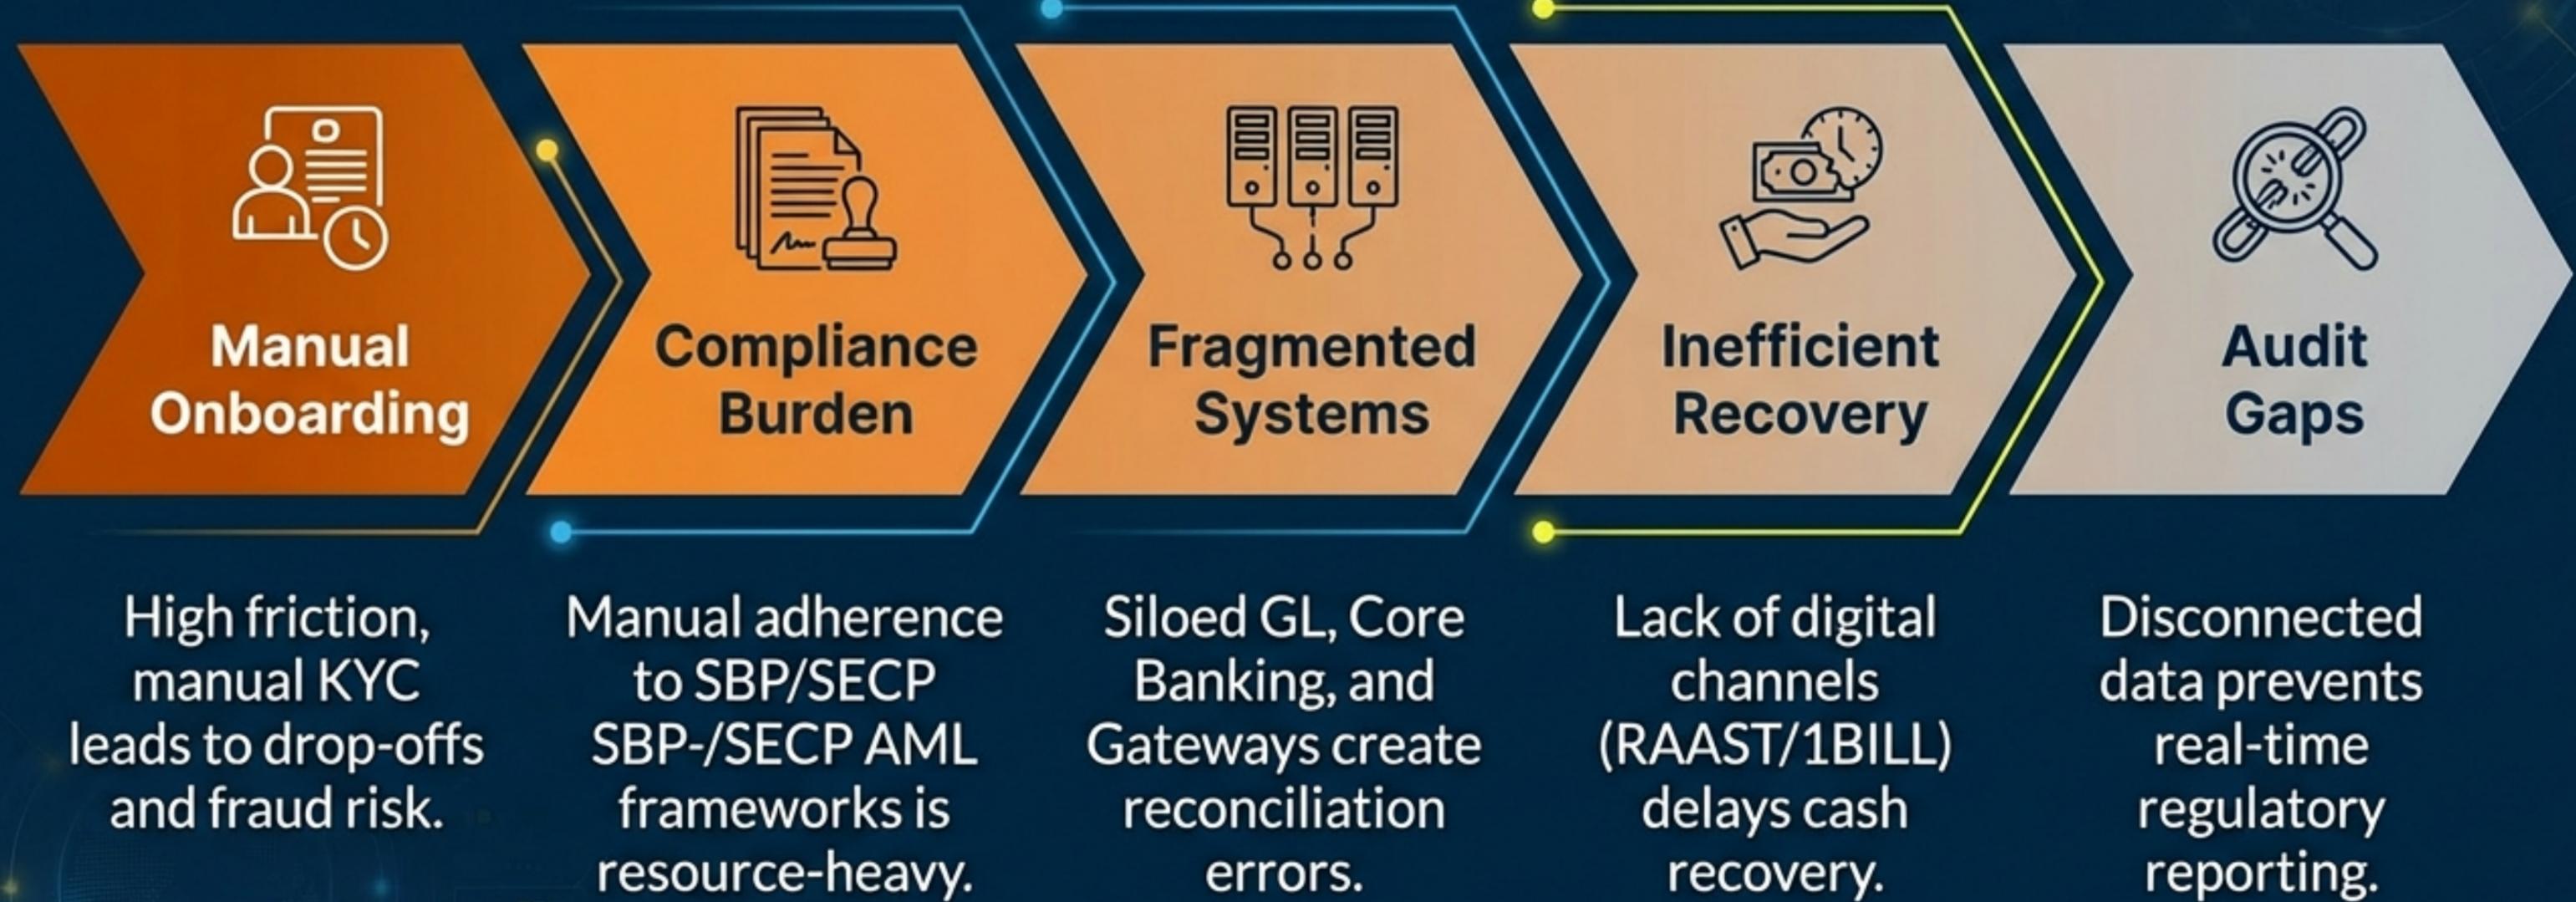

## Operational Control

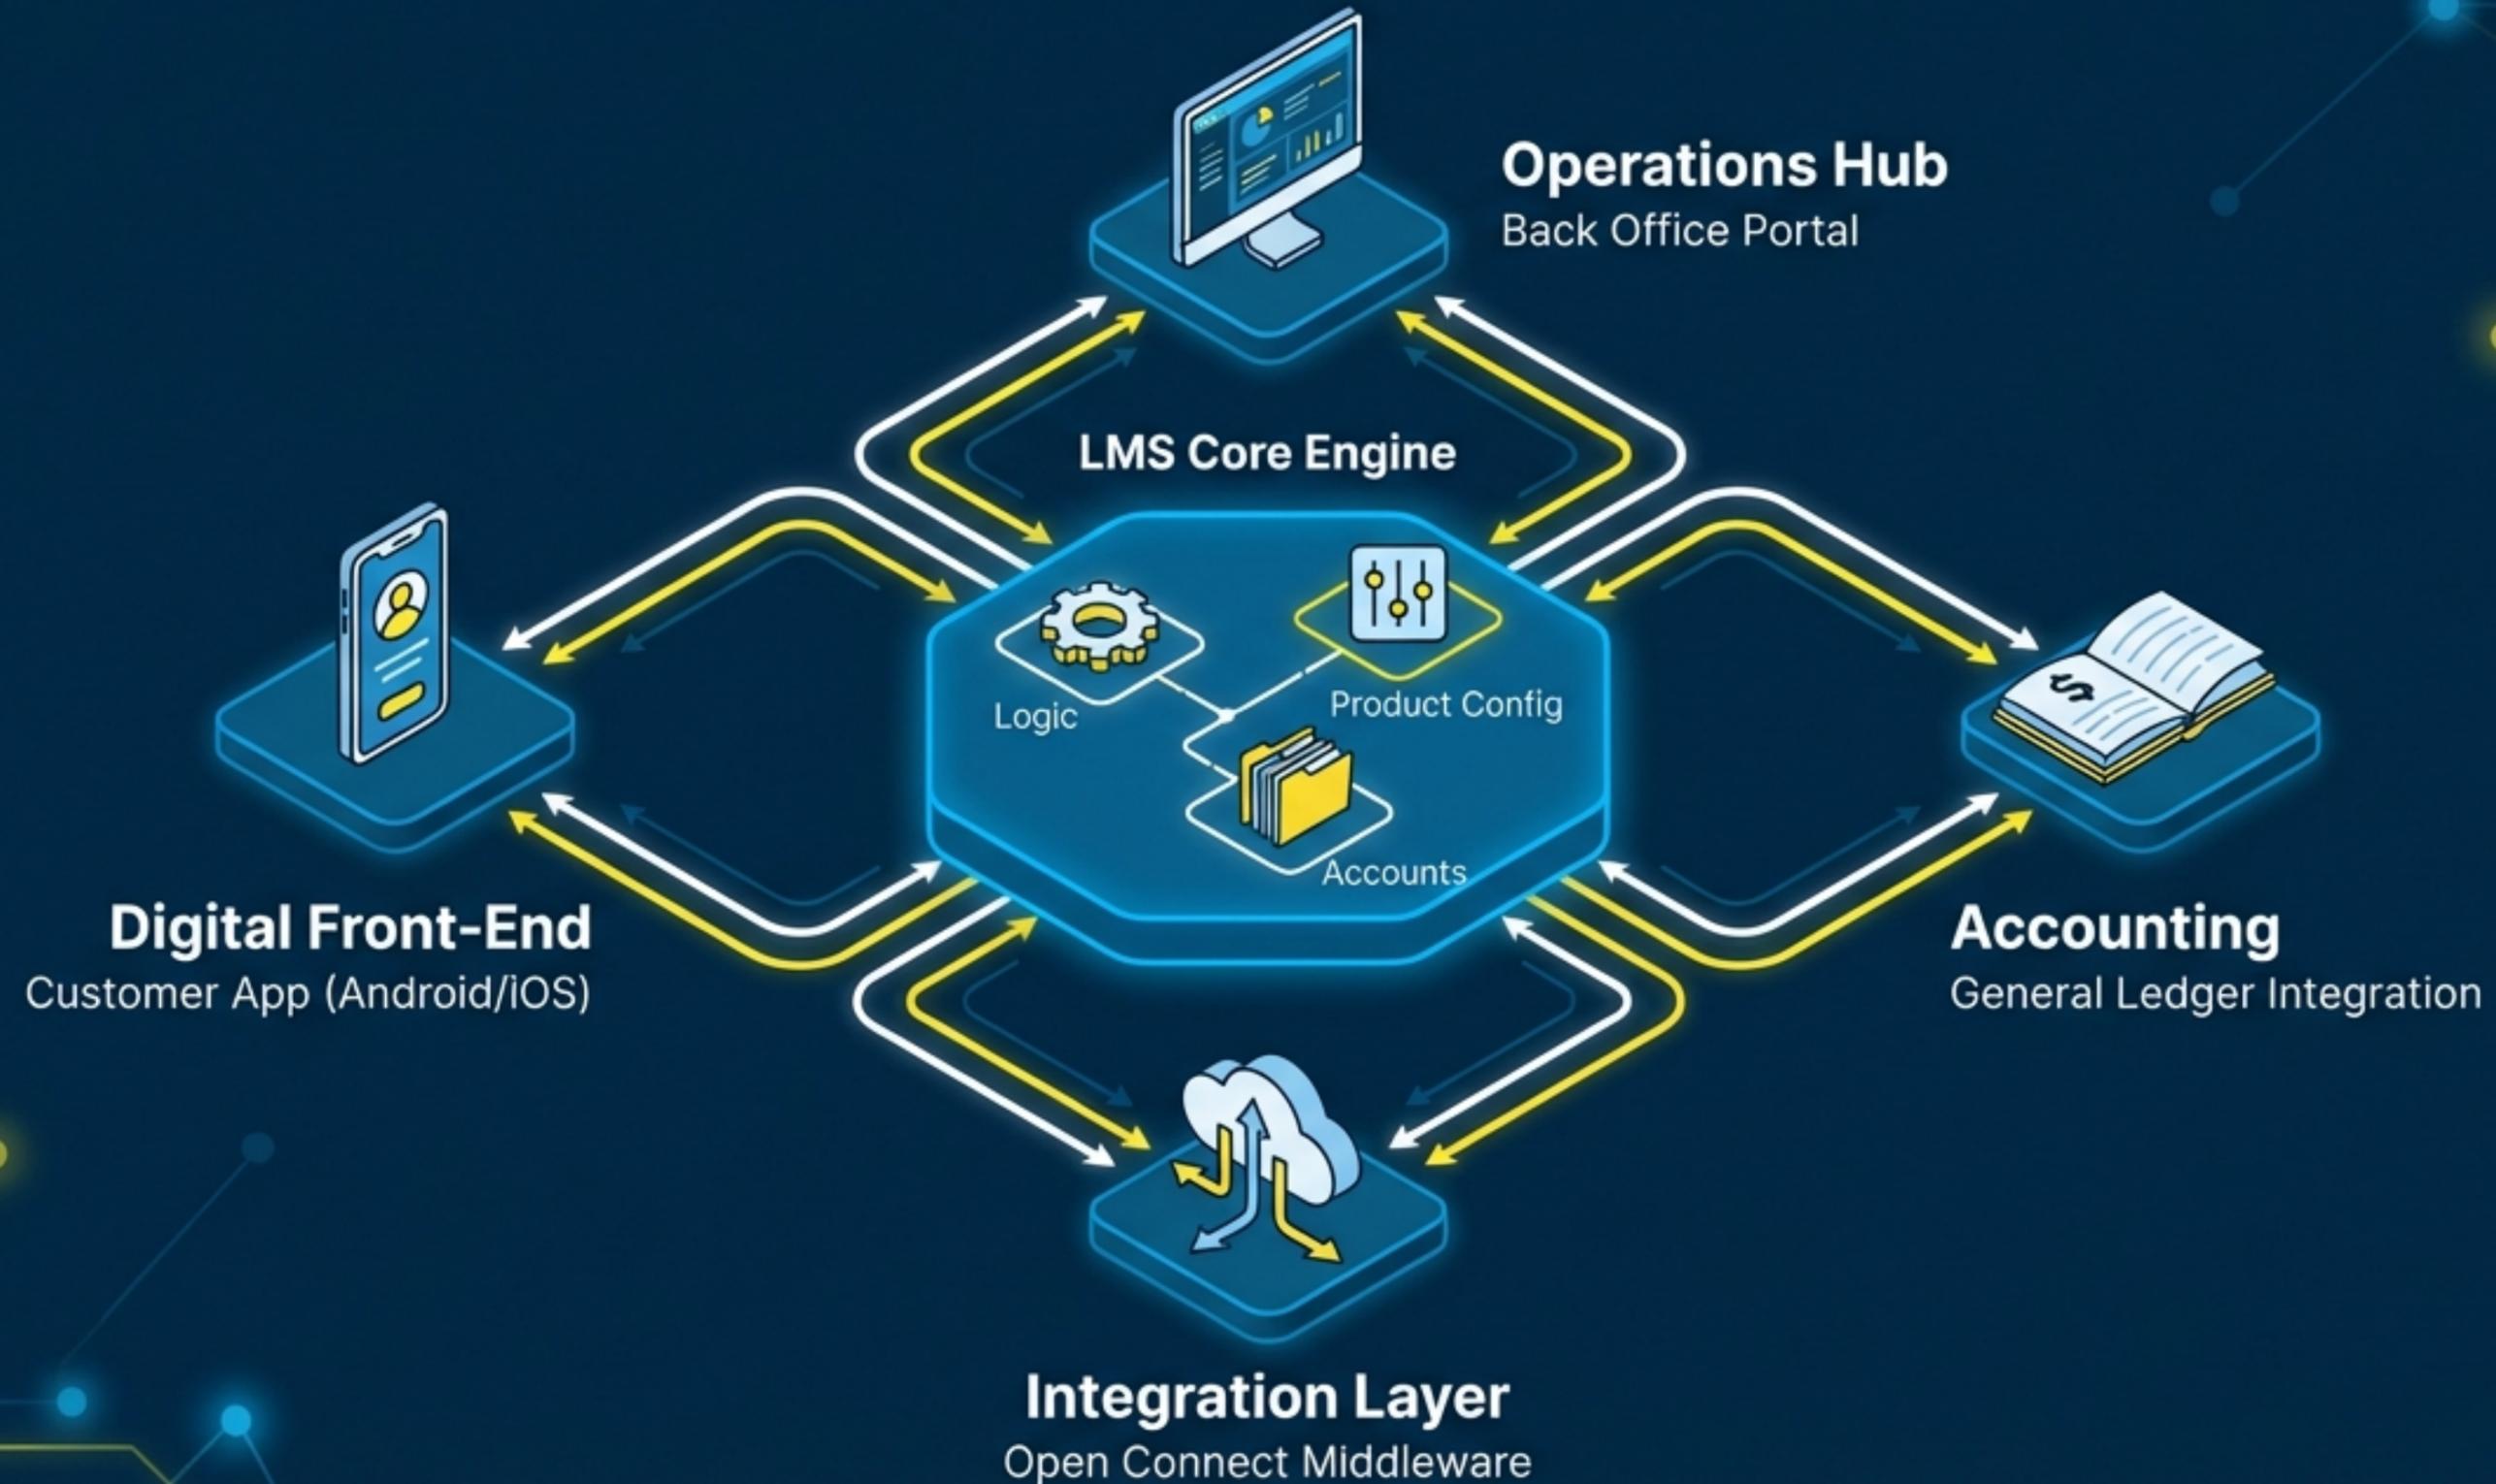

Centralized back-office portal for real-time portfolio monitoring, NPL tracking, and audit-ready reporting.

# Critical Challenges in the Modern Lending Landscape

# Solution Architecture: The Open Credit Ecosystem

# Digital Onboarding & Identity Verification Framework

Multi-Layered Risk & Identity Validation

## Identity Capture

CNIC OCR  
Extraction

## Liveness Check

AI Facial  
Detection

## Biometric Validation

NADRA BVS  
Integration

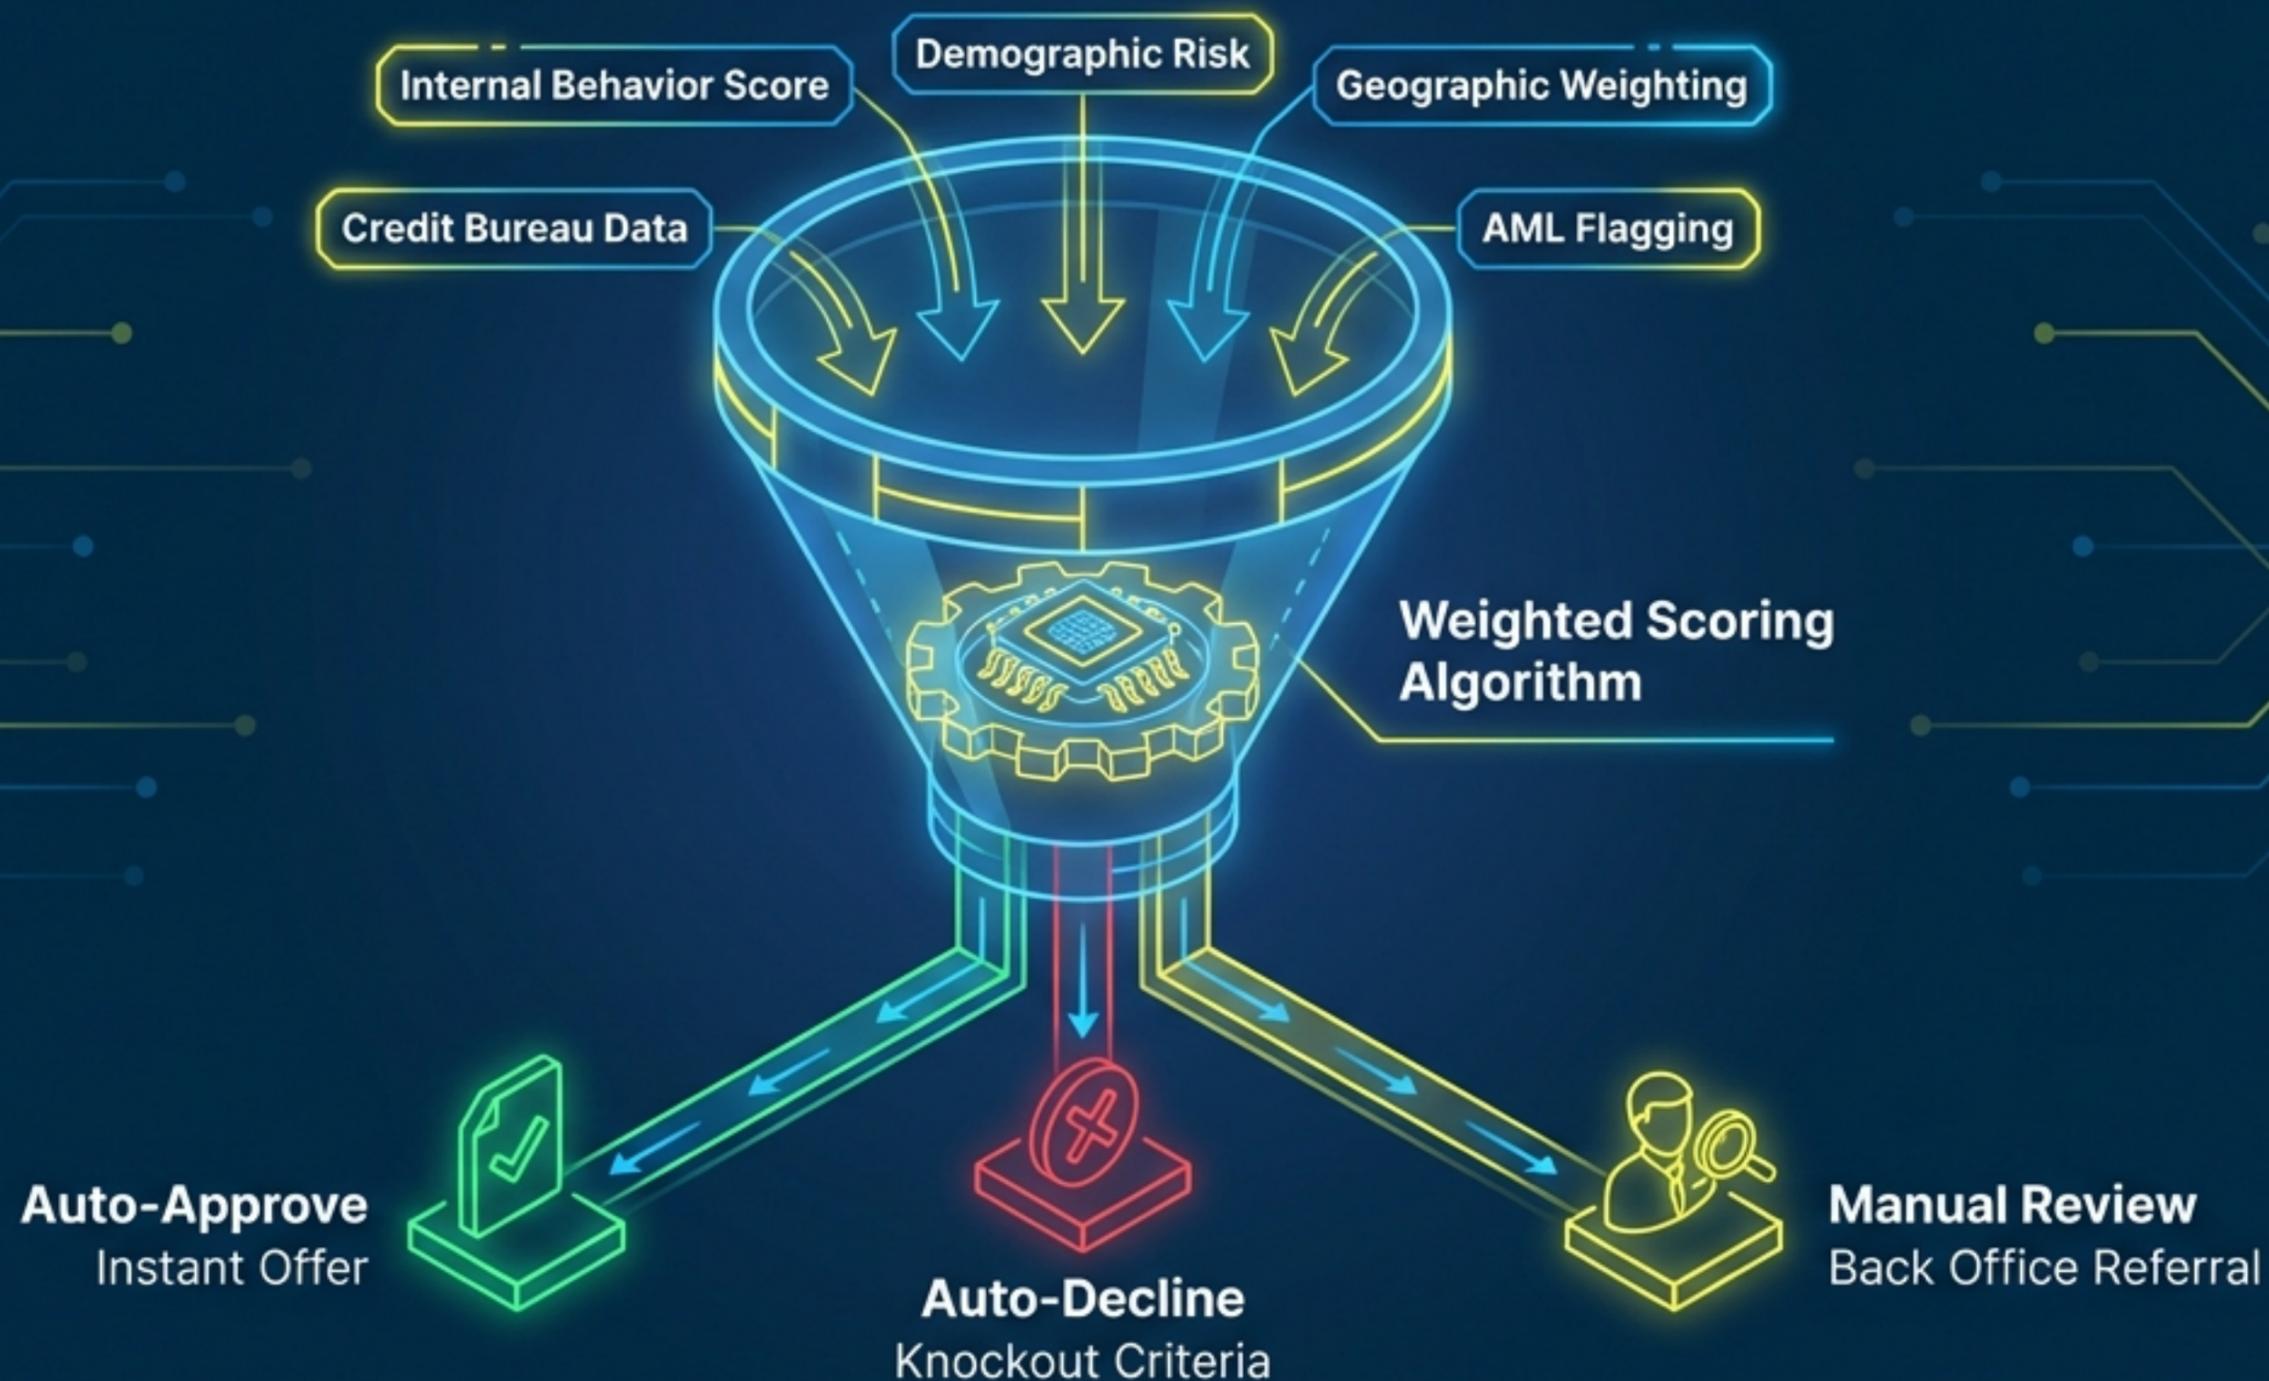

## Verification

OTP Auto-Fetch  
& Email Check

## Screening

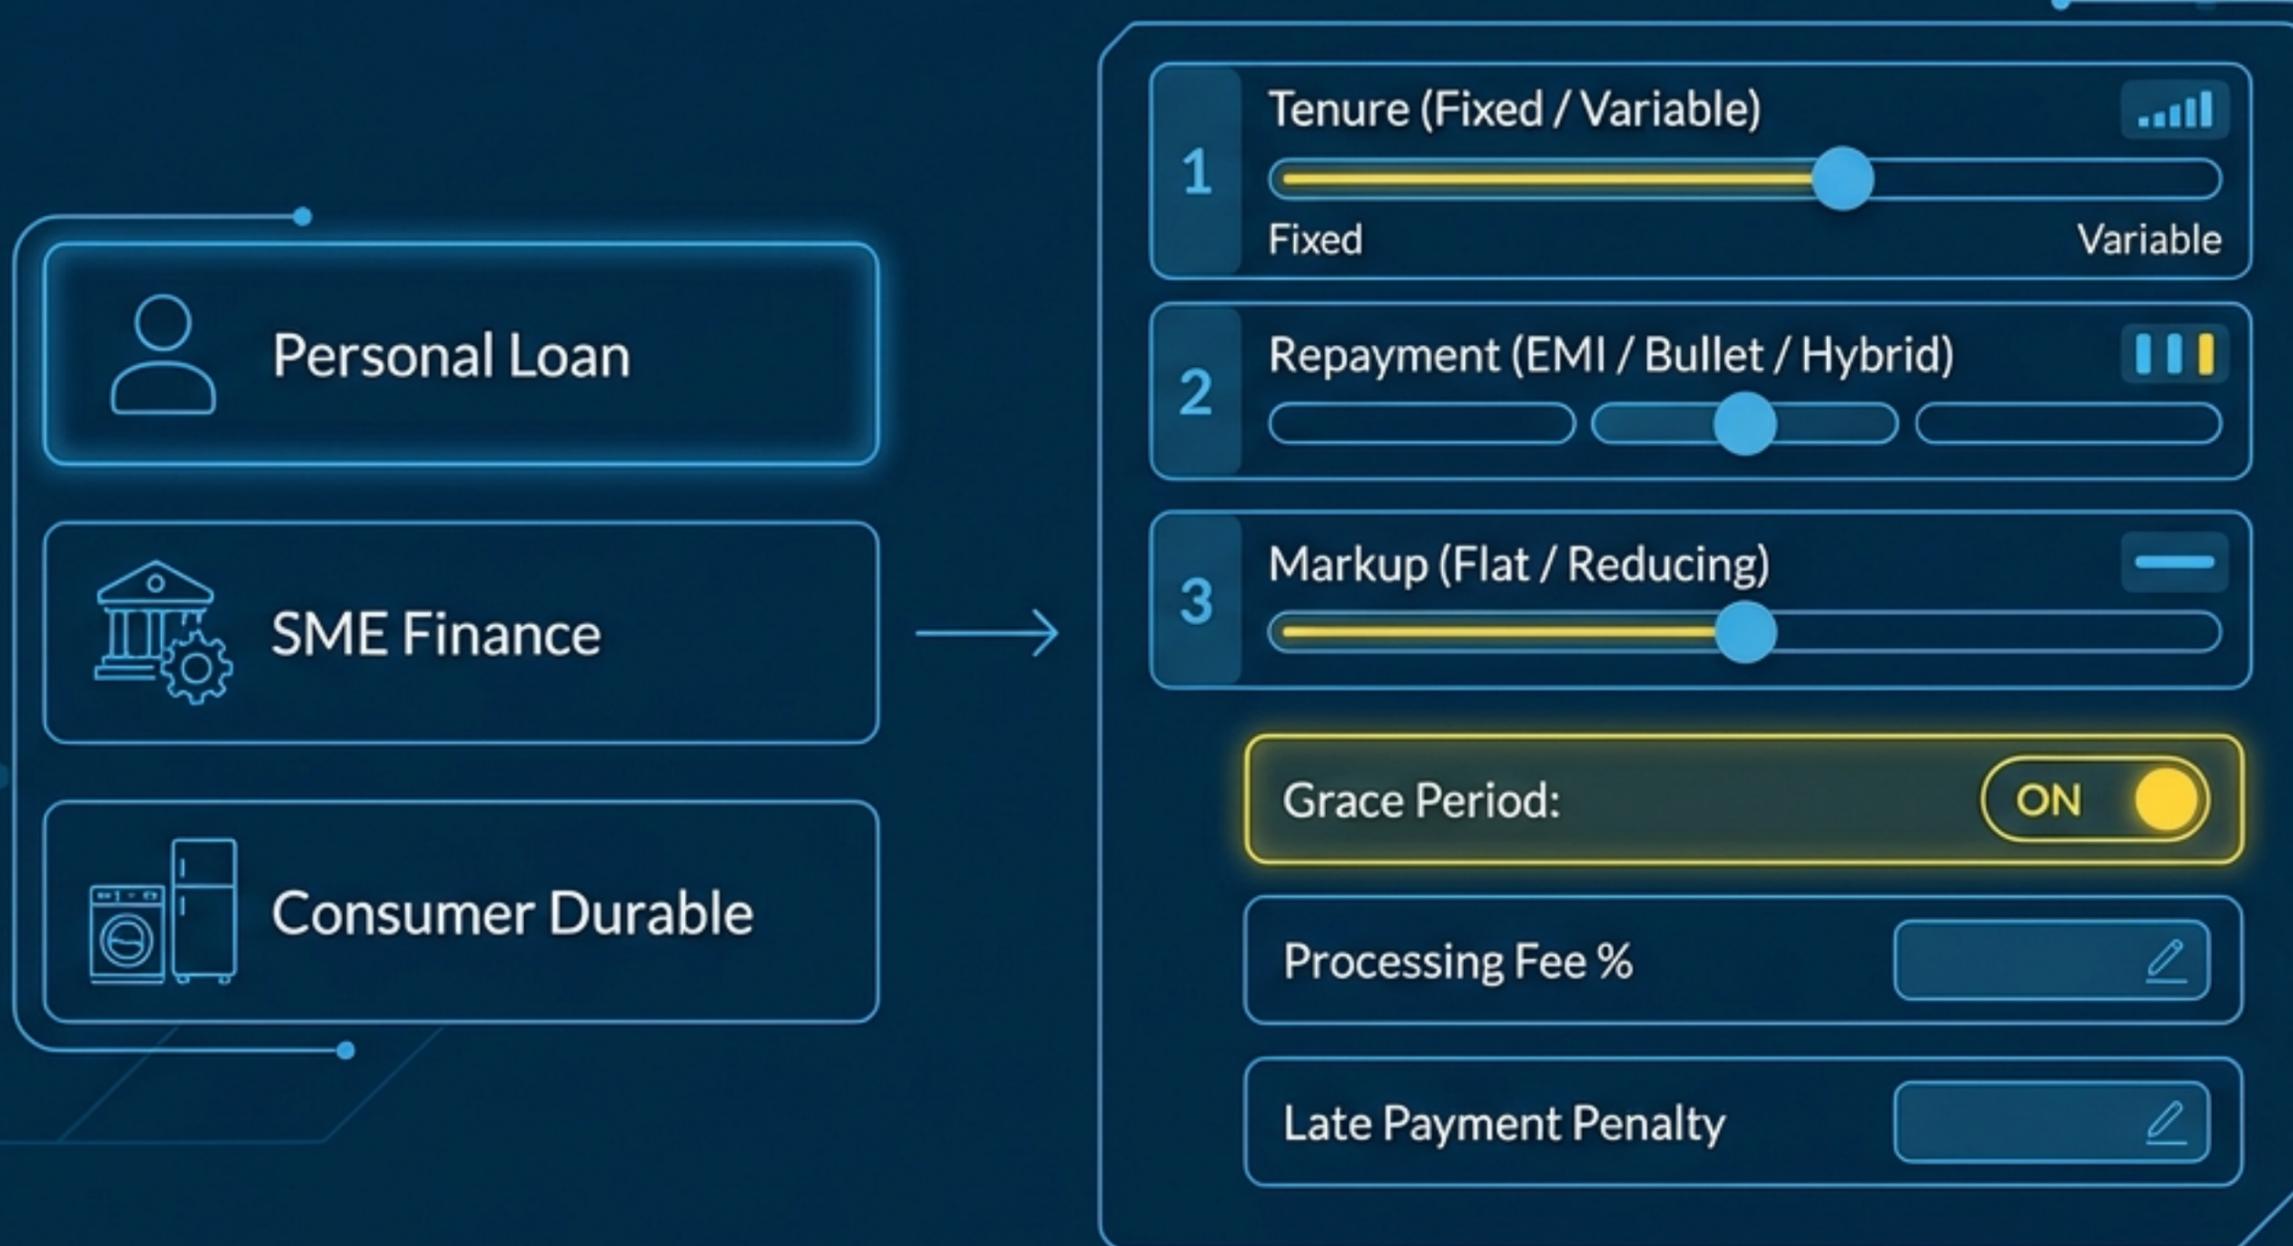

AML &  
Sanction Lists

# Intelligent Risk & Decisioning Engine

# Business-Driven Loan Product Configuration

Launch new products via configuration, not code.

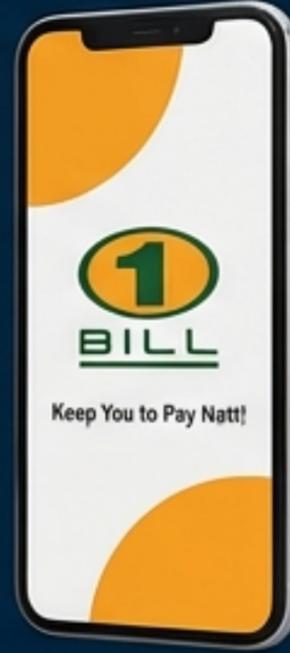

# Omni-Channel Payment & Collection Ecosystem

## Disbursement

Instant Transfer via RAAST & IBFT

## Collections & Recovery

1. **1BILL Integration:**  
OTC & Digital Payments  
(Unique Payment Reference)

2. **RAAST P2M:**  
Request to Pay &  
Merchant Pull

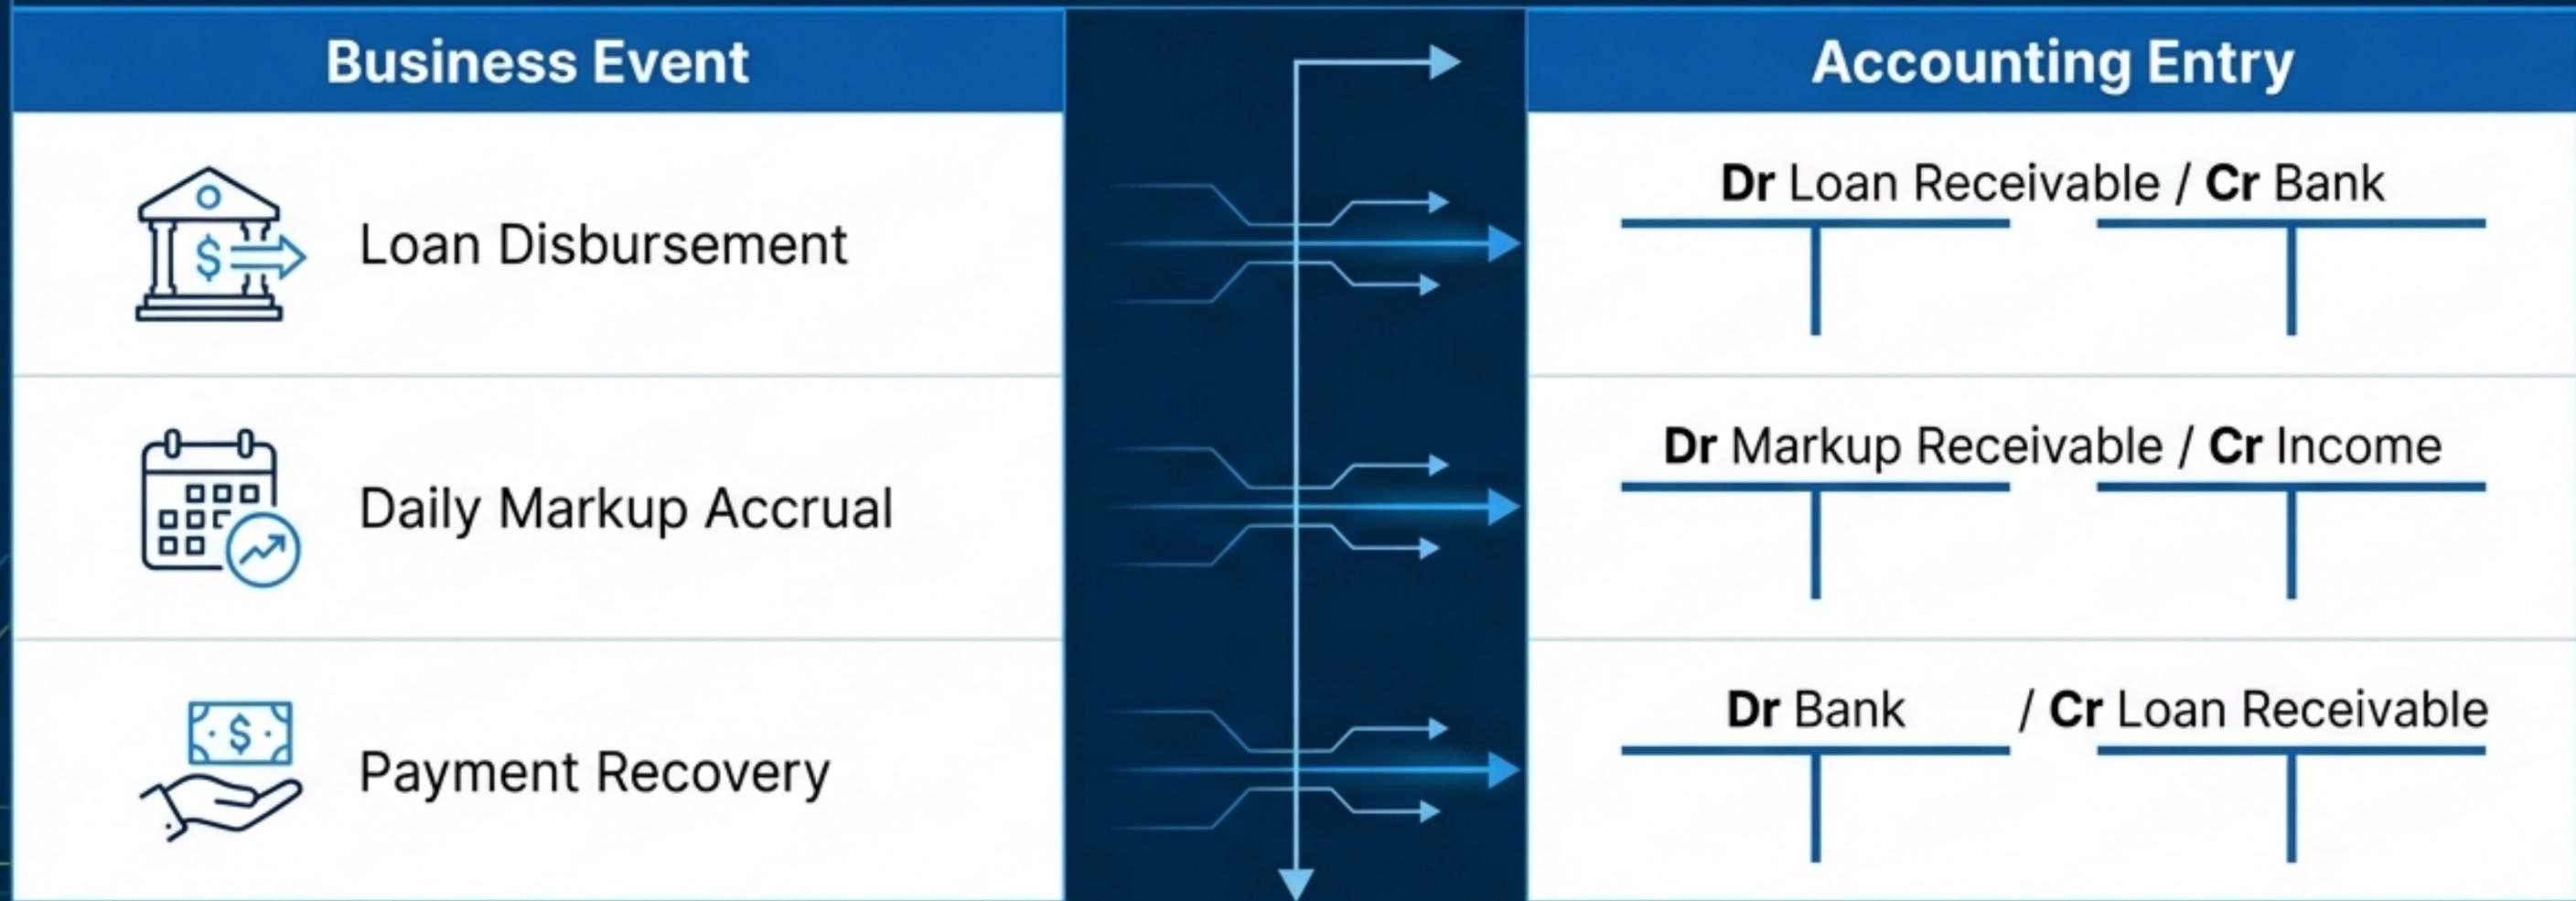

3. **Auto-Debit:**  
PISP Scheduled Pull

**Automated Reconciliation:** Handling Partial, Bullet, and Overpayments.

# General Ledger (GL) & Financial Control

## Automated Event-to-Entry Mapping

## Audit & Control Features

Immutable Audit Trails

Penalty Scheduler

Real-time Reconciliation

# The Customer **Digital Experience**

## **Self-Service Onboarding & KYC**

Lato is a high-fidelity onboarding and progress and tracking flow.

## **Real-Time Loan Dashboard**

Lato is a high-fidelity real-time loans shown on your dashboard.

## **Instant Document Download**

Lato is an instant download for instant document download etc.

## **AI Chatbot Support**

AI Chatbot is a ready support with PAYSYS electric color palette

# Operations & Monitoring Portal

- Real-time Portfolio Health & NPL Tracking
- One-Click Regulatory SBP/SECP Reporting
- Manual Credit Override Workflows
- Complaint & Ticket Management

# Open Connect – Centralized Integration Middleware

# Enterprise Security & Compliance Framework

**Data Safety**  
End-to-End Encryption  
(TLS 1.2+) & CNIC  
Data Masking

**Access Control**  
RBAC & Tokenized  
Authentication

**Auditability**

Immutable logs  
of all logins, score  
changes, and overrides

**Regulatory  
Alignment:**

Strictly built on SBP  
Digital Lending &  
AML/CFT Frameworks

# Scalability & Deployment Architecture

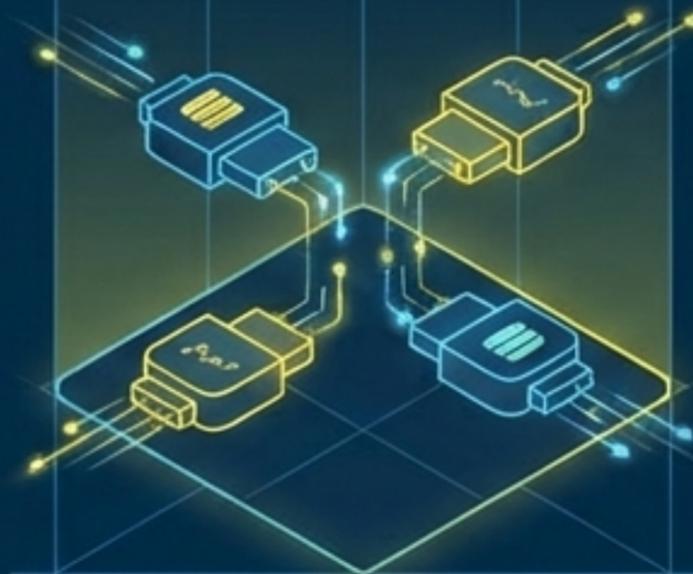

## Microservices

Modular scaling of specific services.

## Cloud Ready

Docker/Container deployment (Private/Public).

## API-First

Rapid integration with fintech ecosystem.

## Resilience

High Availability & Load Balancing.

# Competitive Positioning & Strategic Advantage

	Traditional / Competitors	Open Credit (PAYSYS)
<b>Onboarding</b>	 Manual Paperwork	 Biometric & Digital
<b>Collections</b>	 Cash/Cheque	 Integrated RAAST/1BILL
<b>Compliance</b>	 Patchwork Add-ons	 Native SBP Alignment
<b>Connectivity</b>	 Fragmented APIs	 Open Connect Hub
<b>Risk Control</b>	 Human Approval	 Automated Decisioning
